01 About Us

Playground is a Lisbon-based artistic platform founded in 2019 by dancer and choreographer Eve Zandi.

We believe in the essential role of artistic practices in supporting well-being, creativity, and learning at every stage of life.

Our approach combines artistic excellence with a thoughtful pedagogical framework, encouraging self-expression, collaboration, and confidence.

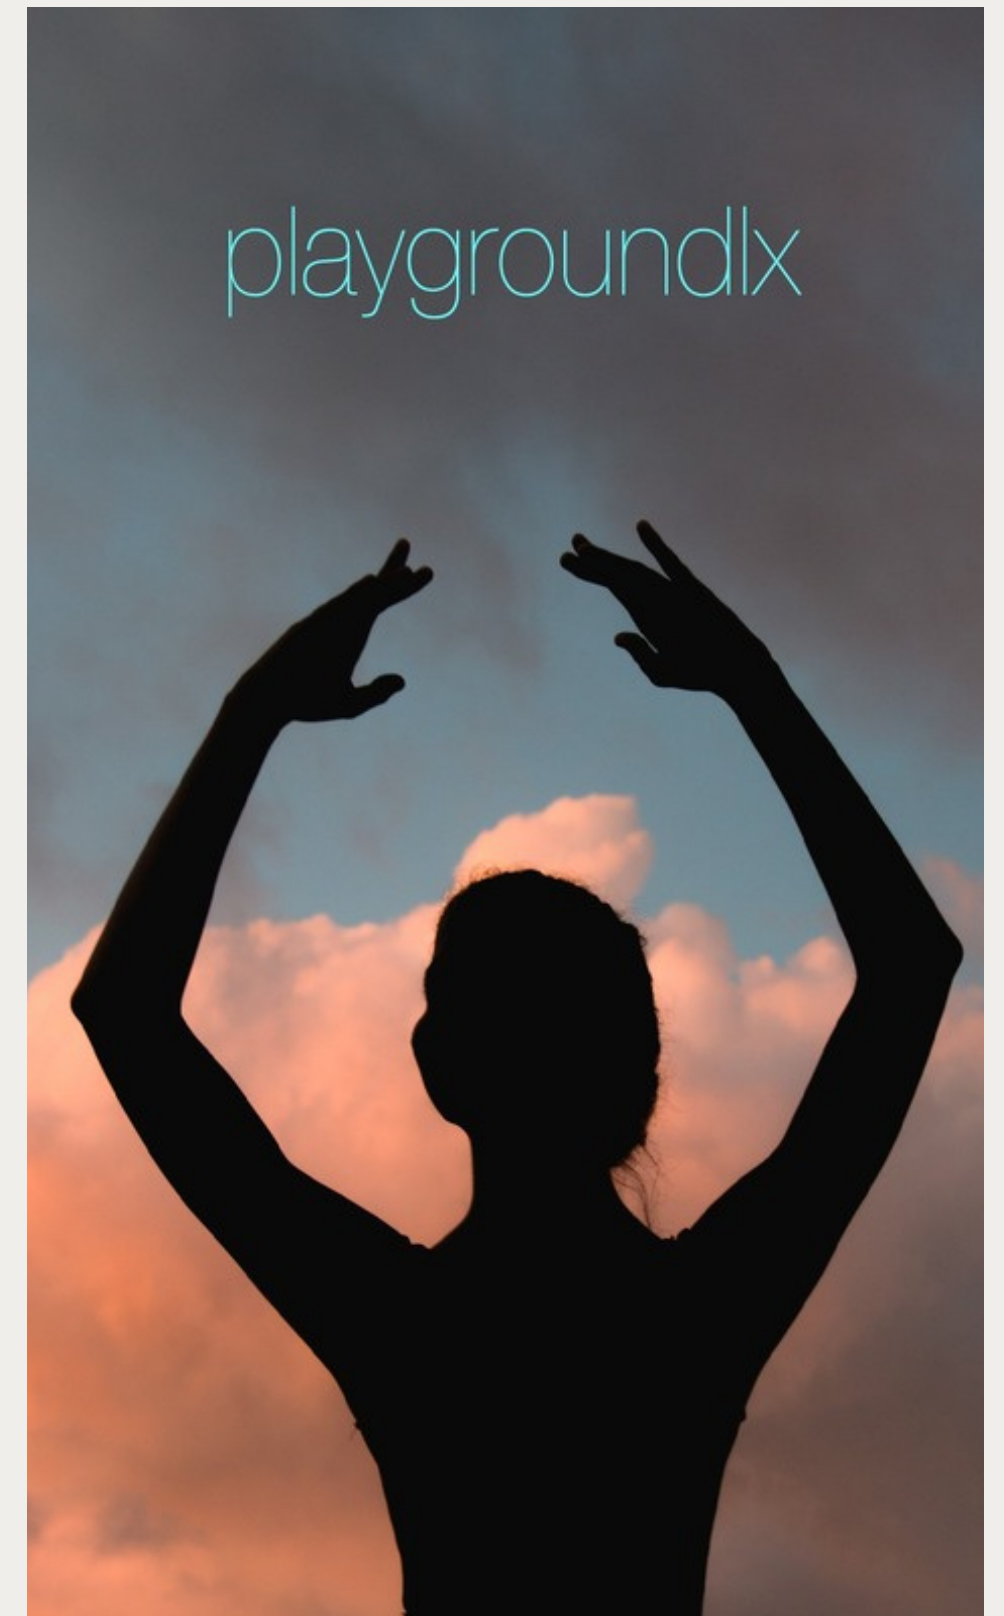

Working in close partnership with international schools, we design programmes that adapt to each school's identity and educational vision.

Our aim is to create meaningful, engaging experiences that enrich the school environment and support the development of every participant.

Playground operates across the city through a network of collaborators and partners.

The city is our playground.

Over the years, we've built inspiring relationships between schools, artists and children.
